

I want to voice my support for XM Satellite Radio and its traffic and weather channels. I PAY A FEE FOR SATELLITE RADIO and should not be prevented from listening to satellite radio. It provides quality and variety and because I PAY FOR THIS SERVICE WHICH IS MY CHOICE, there should be nobody trying to end it. It should not be up to the National Association of Broadcasters to dictate what I listen to especially when I AM PAYING FOR THIS SERVICE!  
I urge the FCC to reject NAB's petition 04-160!
